INTRODUCING LUMA

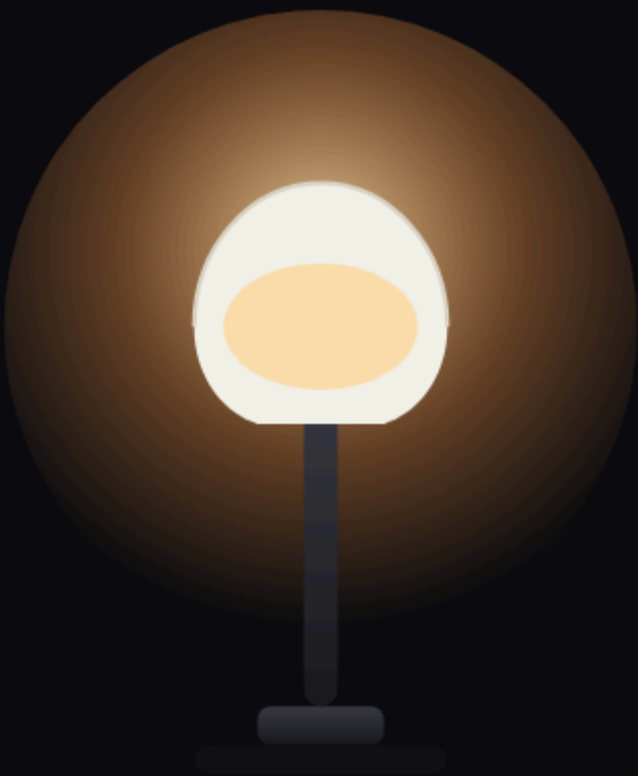

LUMA

The desk light that thinks like daylight.

LUMA reads the time of day and shifts its color temperature, brightness and ambient glow to match — crisp and cool in the morning, warm and dim by night. One lamp, tuned to how your body actually works.

Pre-order LUMA — \$189

See it change through the day

COLOR RANGE

1800K–6500K

LIGHT OUTPUT

1,100 lm

WARRANTY

3 years

FOLLOWS YOUR DAY

One lamp, four moods

LUMA runs a default circadian curve out of the box. Pick a moment below to see how the light — and the reasoning behind it — changes.

Morning

6:30 AM

Focus

11:00 AM

Evening

6:30 PM

Night

10:00 PM

5000K

6:30 AM

A cool wake-up light that mimics the sky.

LUMA opens with a crisp, blue-leaning white that signals your body to stop producing melatonin — no alarm shock, just a gradual rise that mirrors sunrise.

UNDER THE SHADE

Built for the way you actually sit at a desk

Every part of LUMA earns its place — no gimmick modes, no app you have to fight.

Adaptive white spectrum

LUMA continuously shifts color temperature from 1800K to 6500K across the day, following a curve you can tune or leave on its default circadian profile.

Presence-aware dimming

A millimeter-wave sensor detects when you sit down or step away, fading the light in over two seconds and dimming to standby after you leave — no PIR blind spot, no false triggers.

16 million ambient colors

Beyond white light, the base ring casts a soft accent color onto your desk — sync it to an album cover, a Pomodoro timer, or your calendar status.

One companion app

Set schedules, name scenes, and group multiple LUMAs into a room. Everything syncs over Thread and Wi-Fi, and works locally if your router goes down.

Whisper-quiet electronics

A fanless aluminum body dissipates heat passively. No coil whine, no driver hum — measured under 3dB at typical listening distance.

One-cable design

A single braided USB-C cable carries both power and firmware updates. No hub, no proprietary dock, no battery to replace in five years.

THE DETAILS

Specifications

Precise engineering, laid out plainly — everything you need before you buy.

Dimensions148 × 210 × 340 mm (base to head)

Weight890 g, weighted cast-zinc base

Light output1,100 lumens max, 4–100% dimming

Color renderingCRI 97, R9 > 90

Color temperature1800K – 6500K, tunable white

Ambient color ring16.7M colors, 500 nits

Power18W USB-C PD, cable included

ConnectivityWi-Fi 6, Thread, Bluetooth 5.3

Sensing60GHz mmWave presence, 1.8 m range

MaterialsCNC aluminum head, cast-zinc base

App platformsiOS 16+, Android 11+, web dashboard

Warranty3-year limited, 30-day home trial

● TRUSTED AT THE DESK

What early users and reviewers say

94% of beta testers reported falling asleep faster within two weeks of nightly use.

“The most thoughtfully engineered desk light we tested this year — LUMA treats circadian lighting as a feature, not a gimmick.”

AMBIENT REVIEW

“I’ve replaced three desk lamps with one LUMA. The evening wind-down curve alone changed how I sleep after late work sessions.”

Priya Nandakumar
Product designer, remote

“We outfitted 40 desks in our studio with LUMA. Presence dimming quietly cut our lighting power draw by a third.”

Marcus Ohlin
Studio manager, Ohlin & Vale Architects

“The CRI is the real deal — first desk light I trust for color-accurate print proofing without a second monitor light.”

Dana Whitfield
Freelance photo retoucher

● PRE-ORDER NOW

Choose your setup

Every plan ships with the full circadian engine. The difference is how many desks — and how much control — you need.

LUMA

The full experience on a single desk.

\$189 one-time

- ✓ Adaptive white + ambient color
- ✓ Presence-aware dimming
- ✓ Companion app, unlimited scenes
- ✓ 3-year warranty

Pre-order LUMA

MOST POPULAR

LUMA Studio

Two lamps, synced, for dual-monitor and shared desks.

\$349 one-time

- ✓ Everything in LUMA, ×2 lamps
- ✓ Auto-paired scenes across both lamps
- ✓ Priority firmware access
- ✓ 3-year warranty + free shade swap

Pre-order Studio

LUMA Pro

For studios and offices: mounting arm and fleet management.

\$449 one-time

- ✓ Everything in LUMA
- ✓ Articulating desk-clamp arm
- ✓ Multi-room fleet controls in-app
- ✓ 5-year warranty, on-site swap

Pre-order Pro

Frequently asked questions

Still unsure? Here is everything we get asked before checkout.

- How does LUMA know what time of day it is?▼
- Does the presence sensor use a camera?▼
- Can I use LUMA without the app?▼
- What is the difference between LUMA and LUMA Studio?▼
- How long does shipping take?▼
- Is LUMA compatible with other smart home platforms?▼
- What happens if my Wi-Fi goes down?▼

● LUMA

LUMA is a desk light engineered around your circadian rhythm — adaptive white, ambient color and presence sensing, in one lamp.
